

73: the river race

suggested answers

Reasons why the girls won:

- 1) The girls kept their paddles on opposite sides.
- 2) The girls (mostly) were pushing the water in the opposite direction to the way they wanted their boat to go. (This answer may need thinking about.)
- 3) The girls were paddling in time.
- 4) As soon as they started to go off course, the girls corrected early with the effective use of a stern rudder.
- 5) Even when the rear paddler was using the stern rudder, the front paddler kept paddling.
- 6) To be able to do all of the above, the girls obviously stayed focused and concentrated.
